

Talk with God

Asher Monroe

Been fighting the forces inside my head
That plagued me so long
Discovered the veils that had left me dead
And dark in my soul
[?] through my veins
But that only made me worse
So I find myself in a time of need
Desperate to break this curse (oh)

So doctor, can You take away this pain?
Lift me up when I fall again
Father, Father, can You guide us from above?
Fill our world with Your peace, joy, and love
(Hallelujah!)

When I need healing
Have a little talk
Have a little talk with God
I need that feeling
Have a little talk
Have a little talk with God
We all need salvation
Have a little talk
Have a little talk with God
Until the war is done
Have a little talk
Have a little talk with God

From the highs and the lows, everything in between
Weapons [?] my enemies
You kept me standing when I was low
I come back to Your love, only place I know

So Father, help me figure it out
When my body is feeling with nothing but doubt
Doctor, can You take away this pain?

When I need healing
Have a little talk
Have a little talk with God
I need that feeling
Have a little talk
Have a little talk with God
We all need salvation
Have a little talk
Have a little talk with God
Until the war is done
Have a little talk
Have a little talk with God
