

# Dope Shit

Asher Roth

What up world? Finally here  
Let me roll up a joint while you grab us a beer, for real  
I feel like things been getting a bit weird  
So I've got a bone to pick with all the music I hear  
Amongst all the marketing schemes  
I try my hardest to embark within the artist in me  
Wear my heart on my sleeve, play my part on the beat  
And when I'm on the other stars I find it hard to compete  
But all the jargon gets bombarded makes it harder to keep  
Going on with what I started before I fall on my feet  
Cause all they want is just a product, sing a song about weed  
Being blunt and being honest doesn't sell CD's  
You see, I've been loving titties and such  
But there's so much I'd rather talk about than being a drunk  
Skinny dippin' with some women real thin with the bud  
Is way more interestin' than listenin' I guess it's because

See that underground sound the radio don't play  
So today to be a star you've gotta look both ways  
They say they want that dope shit, dope shit dope shit  
Well I'm here  
They say they want that dope shit, dope shit dope shit  
Well alright, but they want something more commercial  
Well alright  
See that underground sound the radio don't play  
So today to be a star you've gotta look both ways  
They want that dope shit, dope shit dope shit  
Well I'm here

Weed is all nonsense  
As long as we believe it we'll continue to be heavenly incompetent  
Its all profit  
As long as they're controlling our thoughts they're calling the shots, it's obvious  
With no options  
We turn on the television and all they tell us is to listen to gossip  
They're all monsters  
Convincing you they're living under the bed or even in the closet  
But they're in our work, in our church, in our conscience  
And in our schools, in our rules, in our congressmen  
Confused use god defense  
But how soon we find out even God's with them  
My god your god who's side you with?  
My god's your god two sides are split  
Common sense, not science of rocket ship  
That's why I dream, step to a new consciousness  
In my dream slept with the new  
Speak through, seek truth, think positive  
Do concerts connect with an audience  
And tell the whole world direct that we all in this  
We all fall down are fathers had started this  
To all y'all we all got a part in this  
When it's all said and done put my heart in this  
And then still find time for some party shit

See that underground sound the radio don't play  
So today to be a star you've gotta look both ways

They say they want that dope shit, dope shit dope shit  
Well I'm here  
They say they want that dope shit, dope shit dope shit  
Well alright, but they want something more commercial  
Well alright  
See that underground sound the radio don't play  
So today to be a star you've gotta look both ways  
They want that dope shit, dope shit dope shit  
Well I'm here

I'm feeling pretty good right now  
Just got some shit off my chest, right  
You know I'm all for some good music and just chillin' and vibin' out  
I think it's only appropriate that we breaking it down  
But right now were here for this in fact it's 1500 or Nothin'
