I'm still awake tonight
broken up inside
I wanna run
but I don't know where to go
I'm calling Your name
through the pain
Will You turn Your face to me
I'm crying out
I need a miracle

If You could make the sun burn through the night And You could make the dead man come alive If You could make the oceans all run dry Then I know You can change my life I know You can change my life

I wanna know who You are
that You can fix my heart
And I don't have to run anymore
Open my eyes
let me see
Give me hope and set me free
Cause I don't wanna be the way I was before

If You could make the sun burn through the night And You could make the dead man come alive If You could make the oceans all run dry Then I know You can change my life I know You can change my life

Give me something to believe in Something worth fighting for Something that I can't ignore You could make the sun burn through the night You could make the oceans all run dry..

If You could make the sun burn through the night And You could make the dead man come alive If You could make the oceans all run dry Then I know You can change my life I need you to change my life

I need you to change my life
