

# Say Goodbye

Ashlee Simpson

You don't know me  
Like you knew me  
You stopped listening  
The moment that I needed you the most

You can't see me  
Like you saw me  
Truth comes easy  
But it's hard for you to pull me from the ground

So I scream  
Scream 'cause it hurts  
Your every word  
Cuts me inside and leaves me worse

There's no way back  
And what if there was  
You'd still be you  
And I'd still need to say goodbye

Maybe you don't  
Love me  
Like I love you, baby  
'Cause the broken in you doesn't make me run

There is beauty  
In the dark side  
An' I'm not frightened  
Without it I could never feel the sun

So I scream  
Scream 'cause it hurts  
Your every word  
Cuts me inside and leaves me worse

There's no way back  
And what if there was  
You'd still be you  
And I'd still need to say goodbye

Nothing will change, no matter what you say  
I'm still gonna be the same  
The harder we try, the harder that we fight  
Can't get it right

So I scream  
Scream 'cause it hurts  
Your every word  
Cuts me inside and leaves me worse

There's no way back  
And what if there was  
You'd still be you  
And I'd still need to say goodbye

Just say goodbye
