

# Never Will

Ashley McBryde

I heard go on, and go  
But just know where you're goin' is a dead end  
Playin' in bars only makes you  
The star of a house band  
And sometimes the hardest part  
Was just to keep playin'  
I'd been gone long ago if I'd listened  
To what they were sayin', what they were sayin'

But I didn't, I don't, I never will  
No, they just started a fire they can't control  
And I wouldn't trade one moment for the way it feels  
Knowin' I didn't, I don't, I never will

They said "Seein' your name up in lights  
You know it's gonna change ya  
You'll look in the mirror some night  
And you'll see a stranger"  
But you gotta play the game  
If you ever wanna play to the big crowds  
You've gone as far as you'll ever go  
Unless you're willin' to sell out, girl, sell out

Well, I didn't, I don't, I never will  
No, they just started a fire they can't control  
And I wouldn't trade one moment for the way it feels  
Knowin' I didn't, I don't, I never will  
Oh, I never will

Money and fame it'll go to your head if you get it  
They never did understand all the reasons we did it  
I can point out the names and the faces of the people who said  
it  
Oh, but honestly, I just don't want 'em to get any credit

Oh, I didn't, no, I never will, I never will  
Oh, they just started a fire they can't control, oh no, no  
And you know I wouldn't trade one moment for the way it feels  
The way it feels  
I didn't, I don't, I never will  
I never will
