

# Face of Love

Ashley Roberts

If fall flow goes  
They sleep with all the lights on  
To kill the shadows that come creepying in the back door  
Like them I can recall when last I faced the darkness  
And held my own  
When I held my own  
And so...

I fall too hard and I fall too fast  
I don't trust love, cause love never last  
For you and I  
Lets burn our pride so we don't leave a scar  
On the face of love  
On the face of love  
Still there's hope in me  
Cause I don't need no harm  
It's like reminder of your presence  
Now that soon will be gone

I want you and I need you  
But I don't  
And I'm afraid, yeah I'm afraid  
And so

I fall too hard and I fall too fast  
I don't trust love, cause love never last  
For you and I  
Lets burn our pride so we don't leave a scar  
On the face of love  
On the face of love

I fall too hard and I fall too fast  
I don't trust love, cause love never last  
For you and I  
Lets burn our pride so we don't leave a scar  
On the face of love  
On the face of love

I fall too hard and I fall too fast  
I don't trust love, cause love never last  
For you and I  
Lets burn our pride so we don't leave a scar  
On the face of love  
On the face of love  
On the face of love  
On the face of love
