

# Ain't No Love

Aslyn

I wanna run and never get tired  
I wanna love the best i was wired  
I wanna know that i cant betray this  
be more than elated to be alive

I wanna know that im taken care of  
know who i am is not about makeup  
i dont need caffeine or compliments fading  
cuz when im breathing it keeps me high

cuz there aint no love we're sending  
we need somethin heavenly  
to believe  
cuz the further that we're gettin  
no anger will refuse to sleep  
erasing you and me

so sun let your rays leave us inspired  
teach us that true love never expires  
and appreciate the things we've been given  
be happy to have or be a friend

cuz there aint no love we're sending  
we need somethin heavenly  
to believe  
cuz the further that we're gettin  
no anger will refuse to sleep  
erasing you and me

what this world doesnt need  
is this sappy song to sing  
but if it starts some thinkin its good enough for me

cuz there aint no love we're sending  
we need somethin heavenly  
to believe  
cuz the further that we're gettin  
no anger will refuse to sleep  
erasing you and me

there aint no love  
no there aint no love  
we need something somethin heavenly  
cuz the further that we're gettin  
no anger will refuse to sleep  
erasing you and me

there aint no love...
