

# Food For The Ignorant

Asphyx

Two religions both so wrong  
But both will preach they'll make you strong  
One means evil, the other good  
Terms I never quite understood  
Two opponents with so much in common  
The choice is yours, angel or demon

Holy or unholy, written in black and white  
Theories coming from books of dirty lies  
Different views on life, the magic word is fear  
Two sides simplicity. Am I Satan? Am I God?  
Idolatry that's floating on rivers filled with blood  
History covered with hypocrisy and pain  
The souls of unawareness are what they want to gain

Sacrifices, ceremonies, desecrations  
Tranquility, blasphemy, desperation  
Divinity, impiety, indoctrination  
Afterlife, eternity, mind consumption

Food for the ignorant  
For those who do not know  
But I learned enough in life  
To see right through your show

Hold your flock in a sacred embrace  
Forbidden pleasures for the bastard race  
Glorification on the supreme mind  
Suffering redeemer, savior of mankind  
Hollow words from a church that's almost dead  
Empty views out of an empty satanic head

I get sick from hearing all your shit  
I believe what I want and I'll stick to it  
No one in this world can make me change my ways  
Why don't you fuck off if you're got nothing to say
