

# The Grand Denial

Asphyx

Packs of the Nippon beast, scavenging the East  
Expansion of territory with primeval savagery  
Decades in torment, a mourning continent

Women their first reward, pleads for mercy ignored  
Coercion and abduction, dragged to "comfort stations"  
An army institution deployed for prostitution

Forced into the brothels  
Abused and brutalized  
Whole families murdered  
Daughters dehumanized

Commodified rape centers  
Virgins, underaged  
Raped, stabbed, beaten, starved  
Enslaved and caged

Injected no. 606, containing arsenics  
Tens of thousands died of disease or suicide  
A life of constant pain, forever in shame  
Apologies never made, and if ever, they come too late
