

Tragic Figure

Assemblage 23

Once you had it all
And threw it all away
Day became your night
Night became your day

Did it ever rain
When the skies were clear?
Does it help explain
How you turned up here?

Peel away the layers
Wash away the past
Progress that you made
Never seemed to last

Did it ever rain
When the skies were clear?
Does it help explain
How you turned up here?

You are just a ghost
You are just a shell
You are just a shadow
But it's just as well

Did it ever rain
When the skies were clear?
Does it help explain
How you turned up here?
