

Emotion

Astrid S

Did you forget
That I've got a thing called emotion
You live and you let
'Til you start to plead
How would I know
Cause you left my wound wide open
Just for how long
Will you let it bleed

The town we are from
The small minded talk
We'd sing the songs with the lyrics all wrong
Invested in love
But now you feel broke
Cause shit didn't turn out the way that you hoped
I get that you're hurt
Cause we don't spend time
As much as we used to
But don't we have learn from mistakes

Did you forget
That I've got a thing called emotion
You live and you let
'Til you start to plead
How would I know
Cause you left my wound wide open
Just for how long
Will you let it bleed

Did you know the lies you would feed me
In the end I'd start to believe in
Did you forget
I've got a thing called emotion

Why can't we
Talk it over
I just, I just don't get it
Why can't we
Talk it over
Ooh...

Did you forget
That I've got a thing called emotion
You live and you let
'Til you start to plead
How would I know
Cause you left my wound wide open
Just for how long
Will you let it bleed

Did you know the lies you would feed me
In the end I'd start to believe in
Did you forget
I've got a thing called emotion
