

Next To You

Aswad

Oooh!

Oooh

Oooh, oooh, ooohooooooo

I, I've waited such a long time, baby, yeah, yeah
To get next to you
I, I've waited such a long time, darling, oh, girl
To get next to you

Something's got to give
To be your love I need to live
Don't you know the way I feel?

My situation's clear
I need you here
Don't wanna stand another night here without you

I, I've waited such a long time, baby, sure, girl
To get next to you
I, I've waited such a long time, darling
To get next to you

Time is fun, alright
Opportunities are tight
Girl, you know the way I feel

I think about you all the time
Wanna make you mine
I need you near, right here, my dear

Don't you know that I (I)
See, need to have you close
Have you whisper in my ear

Oho, I (I)
Don't wanna spend another night
Talkin' to the air

I, I've waited such a long time, baby, oh, girl
To get next to you
I, I've waited such a long time, darling
To get next to you

For some turning makes me weak
The thought of you keeps me from sleep
I need to talk to you
Ooohooo

For when all is said and done
Before the fact we two'll be one
I need to know: do you feel the same way as I do?

Yeah, we'll be alright
Rockin' and jammin' to the bassline, yeah
On the drums, gimme rhythm too
When you hear what you know what to do

Yes, a little bit of that
You don't blame your turn and you rev' it up like that
So come on the floor, make me show you as they do
Babe, and it's good for you

I, I, I, I waited such a long time
Waited such a long time to get next to you
I've waited such a long time, darling
To get next to you

I wanna get, I need to get, I wanna get
(Waited such a long time)
Rock me, darling, I need to get, I wanna get
I wanna get next to you

I, I, I, I waited such a long time, baby
I wanna get (Next to you)
I, I've waited such a long time, darling
I wanna get next to you
