Oh no, you'll never let the music stop  
I want just one more dance with you  
So let the music play on and on, on and on and on  
I say I feel vibrations  
I wanna know, are you feeling the same way too  
Oh little woman, are you?

It's so nice  
I wanna feel the same thing twice  
It's so nice  
I wanna feel the same thing twice

Where ever we go we know the trouble will find us  
So pick us above, now woman a leave your worries behind you  
Dance to the music, 'cause you know that is fine  
Even know a culture though they trying to hide

In day only knew I would feel a when we dance to Jah music  
One thing I know is they would love to feel it too  
Tonight the feeling is fine  
Tonight the feeling alright

So Mr.DJ don't stop the music  
I said we're going on the way and we don't want no bus  
Morning time comes we'll just get on that fast  
No trouble no fuss, I and I
