

No Remorse

Atari Teenage Riot

It's the terror that you've gotta miss And I wanna see you right in front of death Your eyes will shine We're all alone and there is no noise

Step into my shadow With no remorse

With no remorse you ain't gotta die The loudest noise can't make me happy Come on, bastards, feels so good The record's coming out, baby

With no remorse I want to die

No remorse With no remorse I wanna die

"Remain calm, I'm coming to your house to kill you"

I can't come down

No remorse With no remorse I wanna die

What you want me to do? What you want me to do?

No remorse 'cause I wanna die

No remorse With no remorse I wanna die
