

# Not a Worry in the World

Ataris

Do you remember all the things we did?  
And what it's like to be a kid.  
Being young and skipping school,  
I guess we must have broken every rule!

I never thought those times would last forever,  
But now that they're gone  
I'm pretty sure we grew up to fast.

I've had my wishes on a star  
I hope that yours came true.  
Now all I've got is a memory of you.

Not a worry in.. (7x) ... the world!

I remember when you moved away,  
You promised me that you'd be back one day,  
But times have changed and so have I,  
It sucks that friendships end  
With a goodbye.

I never thought that friendships last forever.  
But now that you're gone  
I'm pretty sure we end up all the same.  
Still I won't say goodbye.  
Won't ever say goodbye.  
And know that I'll always be your friend.

Not a worry in.. (7x) ... the world!
