

I'm Here

ATB

I'm here - tonight
Counting stars and satellites
Watching two worlds collide

Head in the clouds
Aching feet still off the ground
Your voice is still around

I'm here
In case you didn't know
I'm here
All for you
Still electrified
A little paralyzed
If you could read my mind
You know I'm here
I'm here I'm here

Let go and see
If you can find another me
Meanwhile I could use some sleep
But I'm wide awake
Instead of falling at your feet
I'll let you know so faithfully

I'm here
In case you didn't know
I'm here
All for you
Still electrified
A little paralyzed
If you could read my mind
You know I'm here
I'm here I'm here

But I'm wide awake
Instead of falling at your feet
I'll let you know so faithfully

I'm here
In case you didn't know
I'm here
All for you
Still electrified
A little paralyzed
If you could read my mind
You know I'm here
I'm here I'm here
