

## Made of Glass

ATB

A change is coming I can sense it now  
The weight is lifting and I'm sinking down  
Birds are flying in the trees below  
The tears are coming, I just let it go

If I could, I'd hold this moment  
If I could, I'd make it last  
Sometimes life just seems to shatter  
Like we're made of glass

Breath on the water, dust in the sand  
Make this moment last  
Breath on the water, dust in the sand  
We're all made of glass

I feel the wonder in my flesh and bones  
I feel the hunger, will you take me home  
Birds are flying in the trees below  
The tears are coming, I just let it go

Sometimes life just seems to shatter  
Like we're made of glass  
If I could, I'd hold this moment  
If I could, I'd make it last

Breath on the water, dust in the sand  
Make this moment last  
Breath on the water, dust in the sand  
We're all made of glass

Made of glass
