

# This Is Your Life

ATB

Heaven is the new-born child  
Linger on the baby's cry  
Echoes till the day you die, you die

Falling out into this world  
Bended, twisted me to curl  
Will you ever fly so high, so high

But from the cradle to the stars  
You feel the pain, you meet the hours  
You will need some love, some love, but...

With love they made the man they say  
And this you have to go your way  
And you will rise above, you will rise above

For now you only got this chance  
Step off the line, learn how to dance  
With this world, you may survive

The loving child will cross your way  
Ignite your nights and light your days  
You will survive, you will survive  
This is your life

This is your life

The way you act, the way you are  
Some pioneer will shine like stars  
Reaching out, they've come so far

While others come and turn to dust  
Existing only to adjust  
This life is so bizarre, so bizarre...

So may you have the chance to choose  
Be decent and play by the rules  
Well, you shall overcome, overcome...

Or will you rise the brand new day  
Blow everybody's minds away  
You'll shine just like the sun, my son

There's good men on the evil side  
And bad can make you feel alright  
Will you fly with the hive, the hive

Or you're the man who's standing tall  
And raise your fist against it all  
You will survive, you will survive  
This is your life
