

# The Unknown

**Athlete**

Let your world be wide open  
And your fears be blown apart  
May your voice be louder than bombs  
Somewhere in silence find one to trust

Lift your head up  
Untie the knot  
My little sunshine  
Hope is never light-years away

Let your senses be ignited  
By streams of neon singing in the dark  
Connected to the planet  
A million neighbours  
A sea of stars

Lift your head up  
Untie the knot  
My little sunshine  
Hope is never light-years away

Leaders, lovers come and go  
Outside forces you can't control  
Oh I see you smiling at the unknown  
Oh I see you smiling at the unknown

Lift your head up  
Untie the knot  
My little sunshine  
Hope is never light-years away

Lift your head up  
Untie the knot  
My little sunshine  
Hope is never light-years away
