

And all the lies you punctured me  
About your great vast history  
The things that make your children great  
Only to manipulate  
You kill you wound you steal their rigs  
You slaughter them like fucking pigs  
You make sure no ones left alive  
Until you meet your demise

The totalities of us, the insanities provoked  
Burn buildings of vermin with gray clouds of smoke  
Your country your liberties demolished to ash  
The rubble amongst us we march on your past

And all the lies you fed to me  
And millions more of this country  
The blinded truth will see no end  
The blinded truth is the truth you bend  
Your propaganda fills their heads  
To salute the fucking fascist feds  
Your stars and stripes are prison bars  
Until we meet our demise
