

All Men Must Die

Atrocity

Visions from God sent,
caught in painful trance

Wasteland of religious war,
thirty years of doom

Body rising up
in holy sickness

Paroxysm of the holy maid,
dark prophecy unveiled

All men must die,
all men,
all men

All men must die,
all men,
all men

All men must die,
the dismal prophecy,
all men must die,
presage of atrocity

Creatures of God's wrath
awaiting judgment day

Devils fear and hysteria
across the bleeding land

Raging pestilence,
shape of shining knave

Lost in affliction and pain,
wings of the angel of death

All men must die,
all men,
all men

All men must die,
all men,
all men

All men must die,
the dismal prophecy

All men must die,
presage of atrocity

All men must die,
the dismal prophecy

All men must die,
presage of atrocity

All men must die,
all men,
all men

All men must die,
all men,
all men

All men must die,
the dismal prophecy

All men must die,
presage of atrocity
