

# As The Sun Kissed The Sky

Atrocity

We sail  
Duat, The Underworld  
Open twelve gates  
Travelling every night

The boat of millions  
Take me away  
Guide me through the night  
Bring me back to life

Mesketet  
Barque of Morning  
Bring me back to life  
Returning in red  
As the sun kissed the sky

We sail  
Stars are shining bright  
Left soil of fate  
Travelling every night

The boat of millions  
Take me away  
The nightly passage starts  
We have to sail again

Mesketet  
Barque of Morning  
Bring me back to life  
Reborn in red  
As the sun kissed the sky
