

In My Veins

Atrocity

Fullmoon night in disguise, i look up to the eternal skies
My mind infected evil, live my life not only twice
I have wakened all the pain which grove the world insane
You see the infernal black, you know me, I bring you
Down, down on your knees
you're tasting the disease, you see
Never cross my ways
Death, Death in my veins
Hate, Hate in my eyes
Your life was ended
When you surrendered
Just by my fingertip
Deathn my veins
Like an one thousand year darkened
dominion - The field of the dead seed
Burnt and withered, you would never
consider to an once prospering land
Day is night and night is day
In the kingdom of the dead.
