

Backtalk

Attila

What if all your secret shit-
talk wasn't as quiet as you once thought

I can hear your voice through the grapevine
secrets don't exist not in my time
always talking shit but you cant hide
running your mouth like a bitch

Backtalk getting the best of you bitch were gonna fuck you up
Cowards trying to hide their face but I think your out of luck
today

you better hope I never find you
now lets see whose the bigger asshole
you want attention here we go
if I find you I will kill you

back and forth again your always on to something
this shit has to end
too bad your life means nothing
back and forth again your always on to something
this shit has to end
too bad your life sucks

Backtalk getting the best of you bitch were gonna fuck you up
Cowards trying to hide their face but I think your out of luck
today

Everybody hates you!

your just another fucking bitch that i wanna punch in the face
your ass is jealous of the shit that comes out of your mouth
you should just replace it with a dick it would only make more
sense you fucking
ugly faggot!
