

## Sad Song

Au Revoir Simone

Play me a sad song  
'Cause that's what I want to hear  
I want you to make me cry  
I want to remember the places that we left  
Lost to the mists of time

I know that you'll go soon  
You'll find out so take me with you always  
I know that you'll go soon  
You'll find out so take me with you always

On buses that move through the night  
We sleep on and on  
We got off at Memphis  
Black-top heat will make us thirsty  
We'll never get sick anymore

I know that you'll go soon  
You'll find out so take me with you always  
I know that you'll go soon  
You'll find out so take me with you always

Play me a sad song  
'Cause that's what I want to hear  
I want you to make me cry  
I want to remember the places that we left  
Lost to the mists of time
