

Devil & Me

Aubrey O'Day

The devil and me
We had this thing
We called an understanding
I gave my soul
Go ahead and feed on me just grant me power
I'm a willing victim just to be admired
Named your price and as soon as I signed it was higher

There's no escape
This street's one way
Leading to a dead end
Covered up in dead men
Wish I learned the lesson
Woulda never got in
I want to escape
But there's no way
It's only a dead end
Covered up in dead men
Everyone is left here
Feeling betrayed

Go, if you meet him run away
Go, save yourself, I'll take the blame
Fame is my fate
Fame is my fate

You know you're caught
When your sins no longer make you guilty
You're living to sell
The devil's work can only leave you empty

There's no escape
This street's one way
Leading to a dead end
Covered up in dead men
Wish I learned the lesson
Woulda never got in
I want to escape
But there's no way
It's only a dead end
Covered up in dead men
Everyone is left here
Feeling betrayed

Go, if you meet him run away
Go, save yourself, I'll take the blame
Fame is my fate
Fame is my fate
