Audio Adrenaline

Love lets love forgets
we don't need a world of regrets
so let's love
Let's love one another
let's give love to the other
Black or white, young or old
everybody needs a little love to hold

Love is my light that lets me see love is my key that sets me free Love is right, love is good give it out, I know I should Love was shed on a tree look out world, Calvary I am glad I'm a victim of love

R: Let love, linger over Tokyo let love, soak down through Idaho Let love, stay like a Port-de-Pax Let love, let love

Love never envies, love never boasts giving out love you get the most Let love, let love let love go, let it flow Let it come out of you and let it show, love

R:

Let's love one another let's give love to the other

R:
