Stussy on every bit of me
They can't get rid of me, I bet they sick of me
I smoke like chimney or like I'm hickory
Give girl the dickery and then I'm dippingy
Yachts on the dock, man Miami's killing me
I'm caught in the mansion on xanax endlessly
Pain is fantastic, man what's got into me
6, woo woo, I got enemies and I'm
Still in the same damn spot that they found me
Still got the same damn partners around me
Everybody poppin' around me
They say the city ain't poppin' without us
It ain't in your best interest just to doubt us
If your interest is interest, stay around me
Nigga we 9s, we ain't the type to play around with it
So don't play around me
I don't think we'll take another L, I'm a roll a L
Hangin' out the window, extended middle finger
Yellin' out "Fuck the 12"
Witness statement with no hesitation
I need sanity cause this life is crazy
Pussy, drugs, weed, that's the medication
And I'm meditatina', let me tell you baby

Still in the same damn spot that they found me
Still got the same damn partners around me
Everybody poppin' around me
They say the city ain't popin' without us
And I'm still in the same damn spot that they found me

Turn your phones off, I need no distractions
Had to cut her off I need no attachments
I be on the turf making plays
Quaterbackin', throwin' passes
While these grown men throwin' tantrums
This is for the homie in the Lac, no lackin'
Takin' what he want, no askin'
Look him in the eye, don't mask it
Be a man about it, say our team gettin' money I don't see a plan around it
Lookin' for me you can find me in the spot you found me
Or at the venue with a flock of fans surrounded
I'm on stage fist poundin', crowd surfing, surf crowding
They say I'm the realest ever that shit ain't no announcement
Got the pretty girls on lock, payin' a fee to stand around me
Beef on your menu come see the hands about it
Put the guns down I told you be a man about it

What the fuck, I gotta shout it?
Wait, catch me in the club I doubt it
But if you do put me down plus one cause I'm a bring a clowd in
Better yet, fuck your list, I'm a bring the crowd in
Tell the promoters to pay up or else Ducko wildin
No really hold on
Name a squad for me that's 'bout it
Good Vibe Tribe and Two 9, that's about it
Givenchy crew cut sweater and I feel like being stylish
I stay off the internet, niggas is childish
Stone Junction the livest

Still in the same damn spot that they found me
Still got the same damn partners around me
Everybody poppin' around me
They say the city ain't popin' without us

It's been the same still the same
Had it all, lost it all
Got it back, been the gang still the gang
Yeah I'm the one that she in love with
I keep it real, I give her game
Oh she just wanna see some new shit
Fuck it orchestrate this in the plane
I don't got a lot of friends
I know a lot of people, man there's a difference
Don't worry about that number girl, that's Twitter
And that's just my mentions, I don't pay attention
Mhm, I don't really care who's listening
People that I got with me are the ones I walked in with
Talk guap or talk not
The real is finally on top
My girl sittin' on top of me, nothing else
Keep you hate to your fucking self
Sorry for cussing, I cuss a lot
Opposite with my trust, I don't trust a lot
Which explains all my fucks, don't give fucks a lot
No extras, strong few, but we so extra
Been that nigga, really no flexin'
A normal day for you is so special
Keep your ho next to you cause I'm
