

The Open Sea

Audrey Horne

Hold your head under water
as you reach across the sky
Tell your friends not to worry
noone's gonna die

But it's all I have to give
Yeah, it's all

Down below underneath us
the end is ended cold???
Wrap your arms around your loved ones
and pray that morning comes

Cus it's all that you can give
Cus it's all

All out of time
We pray this is finally over
All out of time

There's no grace in these waters
No hope, no hand of God
This is all

All out of time
We pray this is finally over
All out of time

You're the only one for me
Everything I need

Hold your head under water
as you reach across the sky
Tell your friends not to worry
noone's gonna die

All out of time
We pray this is finally over
All out of time
We pray this is finally over
All out of time
We pray this is finally over
All out of time
We pray this is finally, finally, finally over
