

# Control

August Alsina

Please stay from 'round me  
'Cause I know how I'll be  
Lost 'till you found me  
Deep, off in your body  
Girl, I warned you before  
You walked in the door  
Girl, I lose all composure  
When you losing them clothes  
I don't tell when you show  
All you gotta say is go  
Then we losing control, yeah  
Then we losing control, yeah  
Losing control

I can't help myself 'round you  
Don't see no one else but you  
Girl, I must confess to you  
It's always the best with you  
Way you make the body move  
Girl, it make me act a fool  
Can't just go one round with you  
Gotta run it back

Since you been around  
My love is down (Yeah)  
My time is yours (Yeah)  
Your body's mine (All mine)  
And we ain't ever got to plan, the time is now  
We're in the deep  
Hope we don't drown

Please stay from 'round me  
'Cause I know how I'll be  
Lost 'till you found me  
Deep, off in your body  
Girl, I warned you before  
You walked in the door  
Girl, I lose all composure  
When you losing them clothes  
I don't tell when you show  
All you gotta say is go  
Then we losing control, yeah  
Then we losing control, yeah  
Losing control

You ain't gotta do much  
You just gotta show up  
And that's more than enough  
It's real  
Feelings with us  
We ain't gotta pretend  
We ain't gon' get it in

Girl, since you been around  
My up is down (Yeah)  
My time is yours (Yeah)  
Your body's mine (All mine)

And we ain't ever got to plan, the time is now  
We're in the deep  
Hope we don't drown

Please stay from 'round me  
'Cause I know how I'll be  
Lost 'till you found me  
Deep, off in your body  
Girl, I warned you before  
You walked in the door  
Girl, I lose all composure  
When you losing them clothes  
I don't tell when you show  
All you gotta say is go  
Then we losing control, yeah  
Then we losing control, yeah  
Losing control
