

Gay Boy

Aura Dione

Have your heart on your sleeve
You light up the street
Not afraid to be deep
You're all I need

You make me laugh
When I want to cry
I see myself through your eyes

You pick out my dress
Help me to choose
You found the lipstick
That I never use
You make me feel beautiful

Cause you're my favorite gay boy
My night and day boy that never ends
You are my favorite rainbow
Champagne and disco
My closest friend
I want everyone to know
That you're my favorite
You're my favorite

We can be fools
And we can be young
You know the words to all of my songs

Don't ever change
Just to fit in
So fabulous is never a sin

You pick out my dress
Help me to choose
You found the lipstick
That I never use
You make me feel beautiful

Cause you're my favorite gay boy
My night and day boy that never ends
You're my favorite rainbow
Champagne and disco
My closest friend
I want everyone to know
That you're my favorite
You're my favorite gay boy
My favorite gay boy

You pick out my dress
Help me to choose
You found that lipstick
That I'll never use
You make me feel beautiful
You shine like the stars
First on the scene
Laugh and we joke about who is the queen
You make me feel beautiful

Cause you're my favorite gay boy
My night and day boy that never ends
You're my favorite rainbow
Champagne and disco
My closest friend
I want everyone to know
That you're my favorite
You're my favorite
I want everyone to know
That you're my favorite
You're my favorite gay boy
