

In Bottles

AURORA

I've put my tears in bottles
In case if I need them later
You never know...
You never know...

And if I get thirsty
Will they make me sad?
Forever...
Forever...

Oh, cover your eyes, cover your eyes
Hide me inside, under your spine, under your spine
Under your spine
Under your spine

I will kindly watch you sleep
I find out that your eyes are open
I hide other pieces that you never would've liked if you ever knew about them
So I hide my children...

Oh, cover your eyes, cover your eyes
Hide me inside, under your spine, under your spine
Under your spine
Under your spine

Down your spine
My spine
Down your spine
Down your spine
Down your spine
