

ATF, ATF, we don't need the ATF  
There's an organization with dangerous views so the fighting so  
on erupts  
We could've asked what they believed if they hadn't been blown  
up  
But were their views dangerous to the people or the state  
Did they know the truth about the government based on hate  
ATF, ATF, we don't need the ATF  
Their twisted reign of terror is the cause of many deaths  
It's their twisted reign of terror that you willingly accept  
Appointments made by Janet Reno help the blood-soaked ATF  
Like Mark Richard who's made his life's career by covering up w  
hat's left  
They claim it's national security so the publice never see  
That this secret service bullshit's at the expence of you and m  
e  
ATF, ATF, we don't need the ATF  
Their twisted reign of terror is the cause of many deaths  
It's their twisted reign of terror that you willingly accept  
If you cross our government then you may just disappear  
And become another statistic for the rest of us to hear  
If you keep on looking closer you may just find your death  
Compliments of our government and bastard  
ATF, ATF, we don't need the ATF
