

## Places

Austin Mahone

She know it, she know it  
Yeah, yeah, she know it  
She know it, she know it  
Yeah, yeah, she know it  
She know it, she know it  
Yeah, yeah, she know it  
She know it, she know it  
Yeah, yeah, she know it

Places, flights and confirmation just to see my girl  
A million different faces  
So many beautiful girls I've seen around the world  
You know the situation  
We drop it all now, and pack your bags and come to me  
You know that I'll be waiting  
Cause I'm dying for your company  
Got you screaming out, oh woah, oh woah  
Got you screaming out, oh woah, oh woah

Cause she knows that she's all in my head  
I can't lie because we both know that it's true  
And she knows I'm impressed  
By the way what she does and what she do  
By the way what she does and what she do  
By the way what she does and what she do

Patience girl I know I've been gone I've been on the road  
(I'm coming home)  
I know that you've been waiting  
Stuck in a small town and you're feeling all alone  
You're going through these phases  
Hold it down girl cause you know I'll come for you  
I know you've been frustrated  
Give me time, I swear we'll make it through

Got you screaming out, oh woah, oh woah  
Got you screaming out, oh woah, oh woah

Cause she knows that she's all in my head  
I can't lie because we both know that it's true  
And she knows I'm impressed  
By the way what she does and what she do  
By the way what she does and what she do  
By the way what she does and what she do

And she know, know, know, know  
Because she know, know, know, know  
Girl she know know know  
Cause she know know know  
Cause she know know know  
Cause she know know know

Because she know, because... she know
