

# Party Like We Did

Autograph

Wanna Party like we did when we didn't care  
Raise our glasses in the air  
Make me wish I never cut my hair  
Wanna Party like we did, when we didn't care

There's a party on the right  
There's a party on the left  
Such a beautiful sight  
Got me feeling' like Hef

Remember how we used to do it 'till the sun came up  
Remember how we used to think we'd never get enough...

Wanna Party like we did when we didn't care  
Raise our glasses in the air  
Make me wish I never cut my hair  
Wanna Party like we did, when we didn't care

Turn the music up loud  
Turn the lights down low  
Feel the rhythm of the crowd  
Take me where I wanna go

Remember how we used to do it back in the day  
Remember how we used to live like there's no other way...

Wanna Party like we did when we didn't care  
Raise our glasses in the air  
Make me wish I never cut my hair  
Wanna Party like we did, when we didn't care

The gleam is in your eye, the fire's deep inside  
Don't let the moment pass you by

Wanna Party like we did, Party like we did  
Party like we did, Party like we did...

Wanna Party like we did when we didn't care  
Raise our glasses in the air  
Make me wish I never cut my hair  
Wanna Party like we did

Wanna Party like we did when we didn't care  
Wanna Party like we did  
Wanna Party like we did when we didn't care  
Wanna Party like we did  
Wanna Party like we did when we didn't care  
Wanna Party like we did when we didn't care  
Wanna Party like we did when we didn't care
