

# I Need You

**Avalanche City**

Oh my love I'd fallen for you long before  
You ever said a word to me and now I see I need you more  
Oh my love when I had you in my hands to hold  
Your lips went inside my heart and down my spine and left a hole

So I need you more than anybody else  
Oh I need you oh and I need you now  
So I need you more than anybody else  
Oh I need you oh and I need you now

Oh my love when you looked into my eyes  
When you threw your arms around me oh you know you changed my life  
Oh my love when you whispered in my ear  
It felt like an age reversed and washed away all of my years  
Oh my love the first time you noticed me  
The sunlight was dim compared to the blazing glow of victory

So I need you more than anybody else  
Oh I need you oh and I need you now  
So I need you more than anybody else  
Oh I need you oh and I need you now
