

# Inside Out

Avalanche City

We are coming last baby this is all done  
We've put us through the tests and we failed each one  
So I'm cleaning out the back seat getting my stuff  
Please stop me when I leave but I know that you won't

And this is inside out  
I want the best but our love is lost  
And this is inside out  
I want you here but all we have is gone  
And this is inside out  
I want the best but our love is lost  
And this is inside out  
I want you here but all we have is gone

I want to move but my heart keeps dragging me down  
I'm trying to speak but the words get stuck in my mouth  
And I've been dreaming of the lies we'd say as I go  
That I'm never coming home girl just so you know

And this is inside out  
I want the best but our love is lost  
And this is inside out  
I want you here but all we have is gone  
And this is inside out  
I want the best but our love is lost  
And this is inside out  
I want you here but all we have is gone  
[x2]
