

Little Fire

Avalanche City

I know my eyes got that lighthouse look
And your sweet red hearts got that blood that
Shoot me to find out where we can be lost
Got your oceans to cross, girl
I think it's a long shot

But I swear even though we haven't got it all
In my heart, in my eyes I want you even more
Cause your love has gold
My heart is sold

So let your heart beat slow, let the little fire grow
Let your eyes keep close to watch the little embers glow
Let your heart beat slow, let the little fire grow
Let your eyes keep close to watch the little embers glow

Would you call my name when I'm lonely
And love take this salty sea, set your sails and
Run out to find out where we can be lost
Got your oceans to cross, girl
I think it's our one shot

But I swear even though we haven't got it all
In my heart, in my eyes I want you even more
Cause your love has gold
My heart is sold

So let your heart beat slow, let the little fire grow
Let your eyes keep close to watch the little embers glow
Let your heart beat slow, let the little fire grow
Let your eyes keep close to watch the little embers glow

So let your heart beat slow, let the little fire grow
Let your eyes keep close to watch the little embers glow
Let your heart beat slow, let the little fire grow
Let your eyes keep close

So let your heart beat slow, let the little fire grow
Let your eyes keep close to watch the little embers glow
Let your heart beat slow, let the little fire grow
Let your eyes keep close to watch the little embers glow
