

The Midnight / We Never Had Much

Avalanche City

[The Midnight]

Oh love
It's a good night to see
Down the streets where we grew up
Feeling all the ground and the cobbles beneath

Soon love
You'll be far from this place
From the streets where we grew up
Still running like a fox from the hounds we raised, oh

This is the midnight
And the waters well in your eyes, oh
This is the midnight
We'll be grazing our knees tonight

So here we go
Out through the streets
Pounding our feet
Holding on
Our hearts to be free
This is the midnight we need
Let's go

Water and the trees lead the way
Through the streets where we knew love
My heart is starting fountains and frosty lakes

Cold love, come creepings our way
Through streets where we thought love
Was something; just a passion to fling away
Oh...

This is the midnight
And the waters well in your eyes, oh
This is the midnight
We'll be grazing our knees tonight

So here we go
Out through the streets
Pounding our feet
Holding on
Our hearts to be free
This is the midnight we need
Let's go

(So here we go...)
This is the midnight (Go...)
This is the midnight, oh (Go...)
This is the midnight (Go...)
This is the midnight

So here we go...
Go...
(So here we) Go...
Go...

[We Never Had Much]

It's true
Nothing will ever be as good as you are
As you are
True...
I'll never get enough

Darling, where we come from
We never had much hope
Ho-o-o-pe
We never had much hope
Ho-o-o-pe
We never had much hope
Ho-o-o-pe
We never had much

Darling, where we come from
We never had much...
