

Angels

Avalon

When the sun no longer shines
And the stars begin to fall
Heaven will tremble
For the Lord of all
When he's sweeping through the clouds
And we will all see his face
The messiah is coming to take his place

And God will send his Angels
Wherever love is found
They will lead us home
To holy ground
And God will send his Angels
Wherever love is found
They will lead us home
To holy ground

Face the future filled with hope
And believe the word that lives
The crucified savior
And the father who forgives

Seek his spirit day by day
While your life and breath remain
For your tears will be wiped away
When Jesus comes to reign

And God will send his Angels
Wherever love is found
They will lead us home
To holy ground
And God will send his Angels
Wherever love is found
They will lead us home
To holy ground

Jesus will come
In power and glory
And the Son of Man
Will reign forever

And God will send his Angels
Wherever love is found
They will lead us home
To holy ground
And God will send his Angels
Wherever love is found
They will lead us home
To holy ground

They will lead us home
They will lead us home
They will lead us home to holy ground
