

# Love Won't Leave You

Avalon

I think I caught you just in time  
I caught you trying to survive  
Broken pieces in your heart, never mend  
But every hope you've ever had  
Can breathe again

Love won't leave you empty-handed  
Broken down and somewhere stranded  
Love won't leave you hanging on for life  
Cause love is  
Love is always true  
God is love  
And love won't leave you

I wanna say you'll be okay  
Always doing things the hard way  
Living paralyzed by fear  
But you know  
You can let it go today  
And save tomorrow

Love is gonna free your mind  
Love is gonna steal your pride  
And even though the hard times come  
Love is gonna make things right

I think I caught you just in time  
Love is gonna save your life
