

# You & I

Avant

Wooh  
Ladies and gentlemen  
And all the lovers around the world

I wanna talk about the one I love  
I know a lot of times we forget  
How they take good care of you  
But tonight I wanna express the way I feel

Oh, baby  
Funny how things have  
Changed in my life now

Whether near or far  
I wanna be where you are  
And you're like a rose  
That blooms in my garden

Innocent and sweet  
My love, you are  
But one thing I know, girl

Loving, loving  
Ohh

Loving  
Loving you is easy  
For me to do baby  
And, I will feel this way  
Till the end of time (owhh)

Even though you've heard his 1000 times  
It's the truth  
Oh, baby

You and I  
Together for always  
Baby, I  
Breathe every single breath for you, baby  
Owh, boy

You and I  
One hell of a chemistry  
Baby, I  
I'm living out this life for you

Oh, darling  
I know that things in life are not perfect  
But when it comes to you  
You're all that and more baby (oowh)

Heaven's my destiny  
When I'm with you  
The only place to be just you and me  
Ohhh

My life, my life

My life  
My life is so incomplete without you baby (oohh, owhhh)

I will feel this way  
To the end of time (yeah)  
Even though you heard this 1000 times  
It's the truth  
Whooaah, baby

Oh, baby

I love you  
I love you  
All of you  
All of you, I  
You're everything, babe

Yeah  
Ohhh  
I love you, baby  
Babe, yeah  
I love you, baby  
You make me complete
