

Open my eyes and see my bleeding wounded hands  
Feeling the pain too hard to stand.  
To stand caught in the 'now and here'  
while they are on the way  
Hiding imagination, leading us astray

Use your mind!  
You will leave the flesh dimensions behind  
Sanity can be the toll  
leading to the core of your soul

We are the power inside, we bring you fantasy  
We are the kingdom of light and dreams, gnosis and life: Avanta  
sia!  
We are the power inside, we bring you fantasy  
We are the kingdom of light and dreams, gnosis and life: Avanta  
sia! Avantasia...

Walking along the icy gallery of pain  
Tell me now: what can keep the flame alive?  
Lack of imagination raising up the tower  
where they hold our souls to take away the tower

Use your mind!  
You will leave the flesh dimensions behind  
Sanity can be the toll  
leading to the core of your soul

We are the power inside, we bring you fantasy  
We are the kingdom of light and dreams, gnosis and life: Avanta  
sia!
