

Love Your Life

Average White Band

I believe there's no place for despair
Sometimes your heart is heavy; beware
If you feel like you're ready to give up, keep on
Don't have to live up to what others expect of you
There's something new in every situation
So much to laugh about, so much to enjoy
The power of love
Help from above will only come If we love ourselves
I wanna tell you

Love your life (give it all you got)
Love your life (it's a blessing)
Love your life
Love your life, yeah

Love your life (it's a blessing)

While I get down I feel like I wanna quit
I believe I got the strength to handle this
Make every moment big as it can be
That is only one thing to do
So you got to

Love your life (give it all you got)
Love your life (it's a blessing)
Love your life
Love your life, yeah
Love your life (it's a blessing)

Ohhhhh...
Love your life, yeah
Love your life, Love your life
Love your life, yeah
Ohhhhh...
