

Roamer

Avey Tare

(How's it sound in there? Yeah)

Roamer where you roaming do I roam with thee?
Roamer where you roaming are your thoughts with me?
When the feeling comes along can you hear me sing my song?
Roamer where you roaming do I roam with thee?

Yessum where I roam you are there with me
Dancing with me through impossibility
And the feeling comes along and I join you in your song
Yessum where I roam you'll be there with me

And an endless love don't need beds or tubs
You just open up to below and above

Roamer when you're soaping do you soap with me
Roamer when you're scrubbing do you dream of me
When the feeling comes along can you hear me sing my song
Roamer when you're glistening can you scrub with me

Yessum when I'm soaping I do think of thee
Soaping while the water's soothing my morning

And the feeling comes along and I want to sing your song
Yessum when I'm soaping I do dream of thee

It's an endless drop
A surprising sting
Like a wasp creeping under your pant leggings
It's a rolling wave that will smash your shore
And you find yourself begging the waves for more

And maybe I won't find out what it really means
If I could only slip between the earthly seams
And maybe I won't figure out why it did be
And leave it for some others to keep pondering
And maybe I won't find out what it really means
If I could only slip between the earthly seams
And maybe I won't figure out why it did be
And leave it for some others to keep pondering
Oh why oh why oh why do I keep pondering?

I make my time and it helps me make it
I give some love and it lets me take some
