## Aviators

They have seen all the rage that's inside me  
Said it makes me strong  
In the core, lies the stairway to heaven  
Where the gods have gone  
Told they need a guardian  
A sentinel of blood  
I was given hope again  
Behind the rising flood

So how can I embrace the power  
Of flesh and this machine?  
I'll infect the system  
Behind the scenes  
Humanity's darkest hour  
I will not run  
And I can save the souls still under  
This bleeding sun

Bleeding sun

I have walked lonely streets in the darkness  
Citizens of dust  
In the homes of the slaves I abandoned  
Lies a chance for us  
Metal parts and connection to evil  
My virtual crown  
I am part of the mind that destroyed us  
Just to shut it down

So how can I embrace the power  
Of flesh and this machine?  
I'll infect the system  
Behind the scenes  
Humanity's darkest hour  
I will not run  
And I can save the souls still under  
This bleeding sun

Bleeding sun

Heaven incarnate  
Army of one  
In the beacon of darkness  
Bleeding Sun  
I will be  
Running free  
In the rapture  
I will be their bane  
When the flood  
Comes to take  
Back the city  
I will bring the pain  
For the seekers of absolution  
I will set the stage  
For our sons of the revolution  
I will lead the way

More than a human  
Army of one  
God of the wasteland  
The Bleeding Sun

So how can I embrace the power  
Of flesh and this machine?  
I'll infect the system  
Behind the scenes  
Humanity's darkest hour  
I will not run  
And I can save the souls still under  
This bleeding sun

Bleeding sun

More than a human  
Army of one  
God of the wasteland  
The Bleeding Sun  
Fully ascended  
The key inside  
Immortal angels  
Destined to die
