

Breathe

Aviators

I believe every question has an answer
I believe every white lie has its truth
I believe there's someone out there waiting
I believe I've been waiting here for you

Finally the world comes into view
After all, it was always you
The one I've dreamed of
The missing piece of me
By your side I can finally breathe

Suddenly I find that I'm complete
I guess it's true that love will find a way
Maybe I don't really deserve you
But somehow you love me just the same

Finally the world comes into view
After all, it was always you
The one I've dreamed of
The missing piece of me
By your side I can finally breathe

I can finally breathe
I can finally breathe
I can finally breathe
