

Circle the Drain

Aviators

Somewhere down
Beneath the quiet streets
We've been searching for the answer
We've been losing track of time

Come to life
From our darkest dreams
Through uncanny bleeding eyes
Through a whisper just behind
Behind

We're lost in the deep
And we're losing our minds
There's blood in the water
And fear left us blind
What kind of a monster
Is clever and wild?
With insatiable hunger
For the soul of a child

Down with you
And I'm still afraid
Though we're stronger together
There's a demon below
And we're all gonna float away
As we circle the drain

As we circle the drain

Vicious smiles
Dreams of cruelty
Making my own thoughts a drag
For a hellish appetite

Promise me
In the coming storm
When the heart stops one by one
You'll stay by my side to fight

We're lost in the deep
And we're losing our minds
There's blood in the water
And fear left us blind
What kind of a monster
Is clever and wild?
With insatiable hunger
For the soul of a child

Down with you
But I'm still afraid
Though we're stronger together
There's a demon below
And we're all gonna float away
As we circle the drain

As we circle the drain

In the deep
We're falling further
Vacuous faces in the dark
We are the next mark

Don't look down
You're floating out
We're floating out
And we'll sail together

Don't let go
I'll save you soon
This horror show
Won't last forever

We're lost in the deep
And we're losing our minds
There's blood in the water
And fear left us blind
What kind of a monster
Is clever and wild?
With insatiable hunger
For the soul of a child

Down with you
But I'm still afraid
Though we're stronger together
There's a demon below
And we're all gonna float away
As we circle the drain

As we circle the drain
As we circle the drain
