

October Sunset

Aviators

3:15 on the 31st day
Of the month she hated most
And she's all alone
Had one dream just bury the pain
Or to chase her father's ghost
In this broken home

The night will soon be over
Keep pushing forward, our last October
Don't let the sunset steal your soul
You've faced your fears, and you're still in control

He felt shy at the very first sign
Of his classmates' wandering eyes
They drove him away
Said I'm fine for the very last time
While he's scared and paralyzed
Always afraid

The night will soon be over
Keep pushing forward, our last October
Don't let the sunset steal your soul
You've faced your fears, and you're still in control

I can remember
My heart last November
And the day I lost the faith I'm needing now
So don't shake the nightmare
Not all of us go there
We're already trying to break out
In spite of our guilt
This is how we were built
So don't scare us away from the light
The darkness behind it
This October sunset
Won't break us, we'll last through the night

Tonight we'll sing together
A song for courage to keep us tethered

The night will soon be over
Keep pushing forward, our last October
Don't let the sunset steal your soul
You've faced your fears, and you're still in control

3:15 on the 31st day
Of the month she hated most
And she's all alone
