

# Requiem for the King

Aviators

Last kiss for a burned man  
Dark child of the outlands  
My heavy heart will take this last goodbye  
Brave souls for a last stand  
Spilled blood on my charred hands  
A sacrifice to know you'll stay alive

When the fire has come  
I will die to protect you  
Light a candle for me  
On this winter's day  
My queen, don't cry tonight  
There's a dream left to cling to  
I will rest in ash  
To leave you safe, I pray

Fresh snow for the dark years  
Frost graced by a king's tears  
My love, I must not waver now in death  
Deep earth, where the fires glow  
Faced down with the unknown  
A whispered vow to you on my last breath

When the fire has come  
I will die to protect you  
Light a candle for me  
On this winter's day  
My queen, don't cry tonight  
There's a dream left to cling to  
I will rest in ash  
To leave you safe, I pray

Always these winds will whisper  
Laced with an endless shiver  
Leave a light above for me to find  
Last queen of lands forsaken  
Hold strong when life is taken  
Keep a memory, for peace of mind

When the fire has come  
I will die to protect you  
Light a candle for me  
On this winter's day  
My queen, don't cry tonight  
There's a dream left to cling to  
I will rest in ash  
To leave you safe, I pray
